INTRODUCTION

AND

GENERAL INDEX

R. L. POLK & CO., publishers of more than 850 city, county, state and national Directories, present to subscribers and the general public, this, the 1957-1958 edition of the Gloucester City Directory, including Rockport.

Confidence in the growth of Gloucester's and Rockport's industry and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Gloucester and Rockport to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Gloucester and Rockport Directory will fulfill its mission as a source of authentic information pertaining to the cities.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE MISCELLANEOUS DEPARTMENT, the first major department on white paper, presents lists of city, county and state officials, statistical review, and manufacturing, trade and civic surveys.

II. THE YELLOW PAGES constitute the second major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Gloucester, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the third major department printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Gloucester, and the name, official personnel, nature and address of each firm and corporation in the city. A similar list for Rockport appears after the Gloucester House.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the fourth major department on green paper. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special feature of this section

are the designation of tenant-owned homes and the designation of homes and places of business having telephones. A similar department for Rockport appears after the Alphabetical Section.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Gloucester and Rockport.

The Gloucester Directory Library

Through the courtesy of the publishers of the Gloucester City Directory, a Directory Library is maintained in the offices of the Gloucester Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the United States and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

"The Fish City"

(Courtesy Gloucester Chamber of Commerce)

Statistical Review

Form of Government: Plan E (PR) with City Manager

Normal Population: 25,866.

Summer Population: 40,000 estimated.

Area: Thirty-six square miles.

Altitude: Fifty-seven feet.

Assessed Valuation: Personal \$4,082,125.00 (1957); Real Estate \$44,443,560.00 (1957); Automobile \$4,898,870.00 (1957); Vessels \$2,104,300.00 (1957) with \$63.80 (1957) tax per \$1,000.

White Population: 25,866.

Colored Population: None.

Native Born Population: 85 percent of whole population.

Predominating Nationalities in City: Native American, Italian, Portuguese, Finnish, English.

Parks and Playgrounds: Sixteen with 700 acres.

City's Bonded Debt: \$2,486,000.00 (June 30, 1957).

Financial: Two National banks, One Trust Company, with total deposits of \$16,928,385.25; resources \$18,718,540.71. One savings bank with total deposits of \$13,330,581.49, resources \$15,003,616.11. One co-operative bank with total resources of \$9,363,082.91.

Post Office Receipts: \$253,295.18.

Telephones in Service: 16,533.

Church Buildings: Twenty-two.

Trade: Territory (Retail) serves 40,000 people within the trading area covering a radius of thirteen miles.

Hotels: There are two commercial hotels open all year, with total of fourty rooms; also thirteen hotels which operate only in the summer months. There are motels, motor courts, light housekeeping cottages, guest homes, and other facilities to accomodate summer guests.

City Served By: Boston & Maine railroad.

Amusements: There are two theatres, with a total seating capacity of 2,132 people, also a drive-in theatre off Route 128 at Exit 3, car capacity, 663.

Hospital: One presently with eighty-five beds, fifteen bassinets. Expansion program now under way will increase this number to 127 beds and twenty bassinets.

Education: Number of schools, 13, including 1 high school, 2 parochial schools. Number of pupils in public schools, 4,450. Total of all teachers is 199. Value of all school property, private and public, approximately \$5,458,000.00.

Libraries: There are 39,374 volumes in the library of the city.

City Statistics: Total street mileage two hundred eighty, with one hundred twenty miles paved, seventy miles semi-public, gravel, oiled; and ninety miles unimproved. Miles of gas mains laid, fifty-nine, of sewers, twenty miles main lines (approx). Capacity of water works (municipal) 917,178,000 gallons, daily average pump of 2,616,000 gallons with 112 miles of mains and value of plant estimated at \$3,725,000.00. New distributing reservoir has been built at Bond's Hill, with a 6,000,000 gallon capacity in place of old 3,000,000 gallon capacity.

Fire Department: Employs 81 men including a chief, three deputy chiefs, a motor supervisor, 6 permanent captains, 47 permanent men, 12 reserve men, 11 callmen, with the following equipment: 7 pumping engines (2 in reserve), 2 ladder trucks, 1 combination hose and water truck, 1 squad wagon, a chief's car, and 1 combination police and fire boat, 1 forestry truck and 1 jeep truck. There are 4 fire stations. Value of fire department property \$300,300.00.

City Electrician: Has 1 car and 1 truck in service.

Police Department: Has 37 regular men, 8 superior officers and 6 reserve men with 1 station and 10 pieces of motor equipment and 1 combination police and fire boat, 5 pieces of apparatus and the police boat are equipped with two way radios.

GEOGRAPHY

Gloucester is located about thirty miles northeast of Boston, Massachusetts. The original town of Gloucester occupied the whole northern promontory of Massachusetts Bay, known as Cape Ann and was bounded on the north by Ipswich Bay, on the east by the Atlantic Ocean, on the south by Massachusetts Bay and on the west by the towns of Manchester, Essex and Ipswich.

Cape Ann is divided into two nearly equal sections by the Annisquam River, an arm of the sea extending from Ipswich Bay about four miles towards and into Gloucester Harbor. Gloucester of today retains practically its same boundaries and includes the follow-

ing districts: Magnolia, Annisquam, Riverdale, West Gloucester, East Gloucester, Bay View and Lanesville. The northeastern portion of the Cape, however, which was included in the territory of the original town of Gloucester, is separated into what is known as the town of Rockport, the extreme end being known as Pigeon Cove.

The principal harbor is on the south side of the city and is formed by Eastern Point—a strip of unequal width extending in a south-westerly direction about three miles—a rock bound coast that defies the violence of surging waves dashing almost constantly against it, and affording within a safe shelter and anchorage for a large fleet.

The surface of the town is uneven; and its peculiar character strikes every beholder at first sight with astonishment. Bald, rocky hills, bold and precipitous ledges of rock, with acres of boulders of various sizes, in many places scattered thickly over the surface, combine to present a rare scene of naked ruggedness. The small tracts and patches of clear land, by which this view of barrenness is occasionally relieved, are covered with a strong and fertile soil, suited to the growth of most of our New England agricultural products.

The rocks of Cape Ann are granite, of a beautiful, dark color and are easily wrought into blocks of any needed size. Quarries formerly operated in different localities, several at Rockport, at the lower extremity of the Cape; others at Lanesville and at Bay View—suburban districts of Gloucester proper. The products of these quarries in the form of monuments, decorative ornamentations, paving blocks, etc. have been shipped to every part of the world.

In all, Cape Ann is picturesque. It is truly typical of the rock bound coast of our northern Atlantic States. A drive around the shore road from which an open view of the ocean is afforded practically throughout the entire route, presents a picture of rugged rocks dashed over with spray, these interposed with as many as forty beaches of various sizes around the entire Cape. The drives around Cape Ann are pretty. The inland roads through wooded sections of hard-wood growth give a touch of country life in sharp contrast to the rugged scenery along the shore.

HISTORY

From the time of the early explorers Gloucester, Mass., has occupied a large place in the history of New England and the nation. It is claimed that the Norsemen in 1001 skirted the New England Coast, which they called New Vineland and landed here. It has also been said that they called the place "Kroasnes", the Cape of the Cross; that they were attacked by the Indians, their chieftain, Thorwald, being killed and buried on shore. In 1605, as authentically recorded, Champlain, on a voyage of exploration and discovery sailed about the cape which he named CAPE AUX ISLES.

The next year in early September he founded what is now Eastern Point and came

to anchor in the inner harbor between Five and Ten Pound Islands—so named for the sums for which they were purchased from the Indians in Colonial times. Champlain was charmed with the place and made a prolonged stay. His name for it was singularly appropriate, "Le Beau Port", the Beautiful Harbor.

After Champlain's departure came Captain John Smith and Miles Standish with his company of followers. The honor of making the first settlement, however, which was also the first permanent settlement in Massachusetts Bay, belongs to the Dorchester Colony, a company formed by the Rev. John White, a Puritan minister, rector of StPeter's church of Dorchester, England. His colony sailed for and reached what is now Gloucester in 1623, not, as had been supposed, for the purpose of escaping religious persecution. Its real object was the pursuit of the fisheries which had been successfully carried on off the New England Coast since 1606. The site of the first settlement was at Stage Fort, now a public reservation known as "Stage Fort Park", where their landing is suitably commemorated with a bronze tablet which bears an inscription telling the story of their original landing.

In 1624 Roger Conant was appointed Governor and the Colony attracted much attention. Its interests were concerned entirely in fishing and farming. The fisheries were successfully pursued and good catches sent to Balboa, Spain, but the arable land of the Cape was exceedingly limited. This latter fact resulted in the agricultural part of the colony moving to Salem. Those remaining, however, were joined by others from time to time, among them being a colony from Plymouth in 1630. In 1632 the first church was built and services held. In 1639, the General Court was asked to incorporate the town. A charter was granted in 1642, the town taking the name of Gloucester from the cathedral city in England, whence many of the early settlers came.

The history of Gloucester is entwined with events of national importance. It tells us the story of the expedition against Louisburg, the Gibraltar of America,—how these men, in a craft commanded by Captain Sanders and in a land company under Captain Byles, gave splendid service in reducing that stronghold; they were with Wolfe at Quebec and were in the foreground when the flag of France was lowered for the last time on the American Continent. In the Revolutionary War, the Civil War, in the Spanish American War and in the World War, the call to arms has ever been answered by the population of this fishing city. Their services have been rendered on land and sea and they have left behind a record of which any community may well be proud.

FISHERIES

Destiny ordained that Gloucester should be the first and greatest fishing port in the New World. Back as far as 1602, that daring navigator, GOSNOLD, found that codfish were plenty in Massachusetts Bay and for twenty years before a permanent settlement was made here, the fisheries were pursued off this coast with profit. Destiny also took a hand when the Dorchester Company set out from England in 1623 to engage in a fishing trip and also to found a permanent colony. The

ancient records tell us that the expedition had no definite place in view for settlement and that arriving late in the season at the fishing grounds on the Maine coast, finding the fishing poor and in hopes of making up a full fare, the voyage was continued to Massachusetts Bay. Our first colonists, therefore, were fishermen and the first business of the place was fishing.

With the exception, possibly, of a very few years immediately following 1626, the fisheries have been followed from this port throughout all these 300 years, practically without interruption. Its history is a fitting story of a hardy race of fisher folk, who have ever braved the call of the deep in the pursuit of their industry which today ranks as the oldest in Massachusetts. It teems with stories of self-sacrifice and valor. It has been a costly industry, however. Braving the storms and perils of the ocean in seeking their existence, scouring the seas almost to the Arctic Circle in their perilous quest, at the mercy of the storms and the heavy fogs, the treacherous shoals and drifting boats, over 8,000 of these men have been sacrificed in this perilous calling.

The name of Gloucester has been associated with the curing, catching, packing and distribution of fish since its early settlement in 1623. This industry may truly be said to be the corner stone upon which the city's prosperity and reputation has been based, although at the same time other pursuits have gained ground and prospered.

"Gloucester now has 21 firms engaged in handling and processing fish and the cooking of fish products. It has upwards to 165 vessels of from 5 to over 100 tons gross engaged in off-shore fishing, and more than 100 under 5 tons gross engaged in in-shore and lobster fishing. Crews of Gloucester fishing vessels total more than 1,600. The total number employed in shore plants varies from 1,000 to 1,800 during the peak production season.

Gloucester has a State Fish Pier which started operating early in 1939, located at the foot of Parker Street and over-lapping Five Pond Island. It has a modern cold storage plant with a capacity of 7,500,000 pounds. This pier is equipped to engage in an extensive fresh fish business. Individual stalls are rented to operating firms. Also located on this Pier are two By-Products Plants handling non-edible fish and pogies (menhaden). Oils first are extracted for commercial use and the residue then converted into fish meal for animals and poultry feeding.

With the facilities of the State Fish Pier and private cold storage plants individually operated, the present per day total freezing capacity is more than 1.5 million pounds and total cold storage capacity, 33 million pounds.

Landings of fresh fish at Gloucester increased from 44,699,000 pounds in 1937, with a value to fisherman of \$861,728, to a total of 252,038,000 pounds in 1956, with a value to fishermen of \$7,442,000. Of this total 91,600,000 were pogies or trash fish, value to fishermen of \$1,077,000.

In recent years Gloucester has been the largest producing port of edible fish food in the country. It is primarily a fish processing port. About 90% of fish landed is filleted and frozen. There are 6 firms engaged in processing cooked fish products, principally fish sticks and bite-size codfish balls.

MANUFACTURING AND LOCAL INDUSTRIES

Gloucester has many other industries aside from the fisheries but one directly connected with these, is the manufacture of liquid fish glue. The ancient Greeks and Romans knew that a strong adhesive could be extracted from the skins of certain fish, and used this adhesive for such delicate purposes as fastening precious stones in their setting. Fish glue, however, was made in very small quantities and had to be used immediately. It was not until the last century, sometime between 1870 and 1875, that liquid glue was made a commercial possibility by the discovery of means whereby it might be permanently preserved in liquid form.

Formerly, quarrying of granite was a very important industry. In recent years, quarries at Rockport have been closed, and the industry there is concerned principally at the present time in the cutting of granite pavement blocks.

Awnings, barrels, boats, bread, castings of iron and brass, cigars, codliver and vitamin oils, copper, marine and house paints, dip nets, drop forgings, fish—fresh, salted, smoked and canned, fishlines, fish meal, fishing tackle, fish-traps, glue, granite, ham-mocks, hawsepipes, inks, iron forgings, iron-work for vessels, machinery for cold storage, masts, men's, women's and children's clothing, mucilage, nets, overalls, pants, paste, pastry, patent bits, patent steering wheels, porch dresses, printing, protective outer clothing, rudder braces, sails, seines, sheeplined coats, ships' blocks, smokestacks, spars, steel forgings, stove polishes, street dresses, tanning oils, tents, traffic signs, trawl nets, truck bodies, ventilators, vessel steerers, windlasses for vessels, wooden boxes and drums, yacht steerers.

While Gloucester is situated far from the sources of supply of some raw materials, it has several advantages over inland cities. For instance, the city is on the sea coast where it can obtain various supplies direct by water, at a cheaper rate than by rail. It is located on the Boston & Maine Railroad, with a schedule of sixteen trains daily to and from Boston. Route 128, opened to traffic in 1953 with a high-level bridge over the Annisquam River, now provides Gloucester with a modern double-barreled scenic highway connecting with Routes 1, 2, 3, 9, 15, 20 and with other major highways, thus affording rapid truck transportation to New York points and beyond.

SUMMER COLONIES

The whole of Cape Ann is an ideal resort for the summer tourist. Its admirable location, surrounded practically on every side by the open sea, its magnificent summer climate, never extreme on the hottest days in summer; its natural rugged beauty; its many beaches, both large and small; its pretty inland roads through hard wood groves; its splendid summer cottages and hotels; all combine to make Cape Ann a splendid summer home for those who wish to escape the monotony of city life. Gloucester has long since taken its place as the ideal summer resort. To point out any particular charm it may hold for the summer visitor is difficult, for the attractions are many and of sufficient varieties to satisfy the most exacting critic.

It combines within a radius of one-half dozen miles practically every type of natural scenery found anywhere. Its picturesque harbor wharves, inspiring in thought the 300 years of struggle with the sea that its fishermen have endured in the pursuit of its industry; its many boats entering and leaving the harbor in plying their trade; its foreign fishing colonies,—those of the Italian and Portuguese; its beaches and parks; combine to make Gloucester ideal to the tourist.

CHURCHES

Church influence is strong in Gloucester, many social and welfare activities centering in the church organizations, of which there are twenty-five in the city. The first church was organized in 1632.

There are over ninety clubs and fraternal organizations in the city, including the Woman's Club, Rotary Club, The Kiwanis Club and the Gloucester Chamber of Commerce.

Good government, good roads, good schools, congenial social conditions, a high standard of citizenship, convenience to shipping points, nearness to a market, excellent transportation facilities, abundant recreational and amusement facilities, the advantages of homes in the open spaces combined with urban conveniences—these are the qualities that go to make a city desirable—and Gloucester has them all.

ROCKPORT

Rockport, or Sandy Bay, as the town was formerly called, was a part of Gloucester until 1840 when it was incorporated and set up its own town Government. Like Gloucester, its inhabitants early engaged in the fishing industry, but not possessing the facilities for large vessels the pursuit of this industry has

been largely confined to the shore fisheries, the trapping of lobsters forming the major portion of the business as carried on today.

Rockport granite is known the country over and the quarries at Rockport, Pigeon Cove and Bay View have produced many thousands of tons of this valuable stone and have furnished employment to several hundred workmen. The industry dates from about 1823, when the quarries were first worked, and has furnished granite for government fortifications and navy yards, Boston Custom House Tower, Woolworth Building in New York, and Brooklyn Bridge.

The summer colony has grown considerably in the last twenty years. A cleaner and more wholesome town in which to spend the summer cannot be found in New England. There are a number of good beaches, a beautiful shore drive, and the ocean scenery is unsurpassed. Many artists make their homes here during the summer months and find interesting subjects to transfer to their canvasses along the quaint old wharves and rugged shore.

The breakwater erected by the government has given Rockport a safe harbor, available for large vessels of all types, and the town is often visited during the summer by some of the fleets of United States Warships.

GLOUCESTER CHAMBER OF COMMERCE

The Gloucester Chamber of Commerce is organized for the service of the public and for the promotion of the business and industrial growth of the community. Further information regarding manufacturing opportunities, business facilities and residential advantages, will be gladly supplied upon request by the Gloucester Chamber of Commerce, 120 Main street.

POINTS OF INTEREST

Annisquam Light, at the extreme end of Annisquam Point. Iron light tower

Babson House, at Pigeon Cove, erected by three men who fled from Salem about 1698 with their mother charged with witchcraft and hid in this house

Babson House, Riverdale, built about 1740 by Joseph Allen. Said to still retain the slave pens used during the slavery times

Beaumont, Eastern Point Boulevard, extraordinary assembly of over 20 colorful Period Rooms, with 17th and 18th century furniture furnishings, woodwork, wallpaper, rugs and textiles. Special Group Exhibits of glass, porcelain, metalwork and collectibles from all over the world. All in what Samuel Chamberlain's book calls "the most fascinating house in America" with a garden setting on the water's edge and striking views of Gloucester harbor.

Cape Ann Historical Association, Captain Elias Davis House (1804) and Museum, 27 Pleasant street, fisheries exhibits, ship models, tools and nautical instruments used in 300 years of the Gloucester fisheries. Also Colonial and Federal furniture, china, glass and old time toys. Paul Revere silver, famous collection of paintings and drawings by Fitz Hugh Lane

Cape Pond, on the road to Rockport; water supply for Rockport

Coffin's Beach, near Willoughby Park, now called Wingaersheek Beach. Unusual sand dunes. Take West Gloucester drive to Concord street; through Concord street to Atlantic street; thence to the beach

Dennison House, Bay View, built about 1727

Dog Bar Breakwater, Eastern Point

Dogtown Common. May be visited by way of Washington street and Gee avenue

Eastern Point Light. May be reached by the government road. Niles' Beach and Pond are on the road

Ten Pound Island in Gloucester Harbor, so named from the fact that ten pounds were paid to the Indians for it. Here are located buildings of the United States Bureau of Fisheries and lighthouse

Freeman House, W Gloucester, was erected previous to 1700, and used as a tavern for years

Good Harbor Beach, at Bass Rocks

Governor's Hill, to the left of Washington street by way of Commonwealth avenue; commands a fine view of the city and harbor

Granite Quarries, at Pigeon Cove, may be seen on the drive around the Cape. The quarry of the Rockport Granite Company may be seen from the main road

Ravenswood Park, off Western avenue. This park was donated by Samuel E. Sawyer, to be preserved as a wild park

Stage Fort Park, off Western avenue, opposite Essex avenue

West Gloucester Playground, Essex av

U. S. POSTAL INFORMATION

POSTAGE RATES AND CLASSIFICATION

For information regarding classification, postage rates, and mailability of domestic mail of all classes, entry and mailing of publications as second-class matter, metered and permit mail, bulk rate mailings of third-class matter, Business Reply Cards and Envelopes, apply at your local post office.

DOMESTIC POSTAL RATES

First-Class

LETTERS: 3 cents for each ounce or fraction of an ounce. (Local delivery same rate.)

POST CARDS or POSTAL CARDS: 2 cents each within prescribed sizes.

BUSINESS REPLY CARDS: 4 cents.

MAIL ENCLOSED IN BUSINESS REPLY ENVELOPES: 3 cents per ounce, plus 2 cents per piece, collected when delivered.

Second-Class

NEWSPAPERS AND PERIODICALS (Transient rate): 2 cents for the first 2 ounces, and 1 cent for each additional 2 ounces or fourth class rate, whichever is lower.

Third-Class

(Limit 8 ounces)—On circulars and other miscellaneous printed matter, also on merchandise, 2c for the first 2 ounces or fraction; plus 1c for each additional ounce or fraction.

On books and catalogs having 24 or more pages; also, seeds, cuttings, bulbs, roots, scions, and plants—2 cents for first 2 ounces and 1½ cents for each additional 2 ounces.

Bulk Rate

For Details Consult Your Local Postmaster

Fourth-Class—(Parcel Post)

The present size and weight limits for fourth class (parcel post) will continue to apply in all cases except for parcels mailed at a first class office for delivery to another first class office in which case the size is limited to 72 inches length and girth, 40 pounds in weight to the local first and second zones, and 20 pounds in weight in the third to the eighth zones. Exceptions to the new size and weight restrictions are:

(1) Baby fowl, live plants, trees, shrubs, or agricultural commodities (not including manufactured products thereof).

(2) Books, permanently bound for preservation, consisting wholly of reading matter or reading matter with incidental blank spaces for students' notations and containing no advertising matter other than incidental announcements of books.

(3) Parcels mailed in the United States, including the District of Columbia, for delivery by any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, or mailed at any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, for delivery in the United States, including the District of Columbia, or any Army or Fleet post office or any Territory or possession thereof, including the Canal Zone and Trust Territory of the Pacific Islands.

It is not contemplated that the provisions of this law shall be evaded or circumvented by diverting parcels exceeding the prescribed limits of size and weight from first class offices and mailing the parcels at offices of the second, third or fourth class or on rural or star routes.

RESTRICTED DELIVERY

Applicable to registered mail, certified mail, and mail insured for more than \$10.

Fee

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

HOW TO USE YOUR CITY DIRECTORY

The major departments in the Directory are arranged in the following order for ready reference:

1. INDEX TO ADVERTISERS

2. INTRODUCTION AND MISCELLANEOUS

3. YELLOW PAGES
4. ALPHABETICAL SECTION

5. HOUSEHOLDERS' AND STREET GUIDE

Particular attention is directed to four symbols as being important contributing factors in supplying complete information. They appear as follows: ALPHABETICAL SECTION, "h"—Householders, "r"—Resident, HOUSEHOLDERS' AND STREET GUIDE, "A"—Telephone Subscriber, "©"—Homeowner.

The City Directory Will Answer Your Everyday Questions . . .

About an Individual

How does he spell his name?.....Alpha.
Is he married? What is his wife's name?Alpha.
Where does he live?Alpha.
Does he own his home?.....HH & St.
Has he a telephone?.....HH & St.
Where is the nearest telephone?..HH & St.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.
Insist on being well represented in its pages.

MR. CITIZEN!

**CORRECT INFORMATION
IS VALUABLE TO YOU!**

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. *Your name, listed correctly in the City Directory, is a great asset.* This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

Complete Financial Information . . .

**Published Semi-Annually
March and September**

POLK'S BANK DIRECTORY reports December 31 and June 30 status of the 14,700 banks operating throughout the United States. Each listing includes the statement, officers, directors, correspondents and other general data of banks.

Investment bankers are listed following the banks in each city. A separate section lists legal reserve Life Insurance Companies. Other sections list the latest available information on banks in other countries.

This twelve pound volume, with 2800 pages of accurate, up-to-date information is the recognized standard throughout the world for banking facts. It is easier to use than a dictionary. Price \$27.50 a copy, or \$20.00 an issue on term contract.

Directory Specialists since 1870

POLK'S
Bank Directory

R. L. POLK & CO.—NASHVILLE 3, TENN.

World's "Largest Circulation"

Names and addresses of 39,977,700 passenger car owners and 8,427,900 truck owners . . . families and concerns who buy more than three-fourths of the nation's consumer goods . . . arranged by street and number . . . by city, county and state . . . by make of vehicle and year model . . . are available to the nation's largest advertisers. Yearly, R. L. Polk & Co. compiles for the automotive industry the official registration list of car and truck owners — the largest, most accurate mailing list in the world.

Through this great "circulation list," and through Polk's nation-wide direct mail advertising distribution facilities, the automotive industry and hundreds of other major concerns reach selected markets for their products . . . send advertising messages pin-pointed to the very prospect or customer they wish to reach . . . each advertising message imprinted with the local dealer's firm name and address, and sent to his own selected sales territory.

This world's greatest "circulation list" is a major sales tool used by industry to help move the goods and services that keep our economy rolling, helping to sell not only automobiles, but oranges, magazine subscriptions, vacation tours, and household appliances.

The Guide Post to the City

*Is Never Further Removed From You
Than the Nearest City Directory*

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a privilege card will be sent you upon request to

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising **suggests** wants and **creates** desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants **when he wants to buy**.

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as **in this book**.

A Help to You

In your buying, use the lists in this book. If you see a name in **heavy type** it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold face listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to **you** as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you **now** how little it costs to be **protected**.

R. L. POLK & CO.

The Return Circuit in Advertising

The circuit must be completed before the bell will ring.

The Buyer must find the Seller before a Sale is made.

CREATIVE ADVERTISING—in newspapers, magazines, billboards, etc., tends to suggest wants and to create desire.

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

THIS DIRECTORY is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

HAVE YOU MADE IT EASY FOR BUYERS TO FIND YOU?

The Alphabetical Section—

A guide to the population, its activities and addresses.

The Yellow Pages —

To the commercial, professional and industrial interests.

The Classified Section—

A guide to the many business interests, arranged under typical headings.

The Householders' Guide—

A guide to the streets and avenues and the residents and tenants thereon.

The Guide Post to the City

*Is Never Further Removed From You
Than the Nearest City Directory*

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a privilege card will be sent you upon request to

R. L. POLK & CO.

GLOUCESTER, MASS.

What is a Live Prospect?

He is a man with a lot of questions in his mind. He wants to know Where and What and Who and How and When.

Thousands of live Prospects are looking in directories daily to find out

Where they can buy something?

What they can get for their money?

Whom they can buy it from?

How they can get it?

The time to sell a prospect is when he is alive. Make this book your Salesman to live prospects.

You Use a Directory

To tell you where to go
and how to get there.

The Road to Success is easy
to follow if you are consistent
in your efforts.

137 ROGERS STREET PHONE 4163

POLK'S ROCKPORT

Directory of Householders, Occupants of Office Build-
ings and Other Business Places, Including a
Complete Street and Avenue Guide

1957-58

Copyright, 1958, by R. L. Polk & Co.

Giving the location of Streets, Avenues, Places, Parks &c, showing what other streets and places run from or across them, and with a list of Householders and Places of Business arranged in Numerical Order upon their respective Streets.

The Streets are arranged in alphabetical order with the location of Intersecting Streets clearly shown.

The symbol © following the name of a householder indicates that the house is owned by the person listed, or by some member of the family. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Places of Business are indicated by bold face numbers and business being given.

The ♠ preceding names denotes householders and places of business having telephones.

*Denotes houses incorrectly numbered.

† This symbol placed before a listing denotes inability to get complete information by personal call, telephone or mail.

Locating Missing Heirs

Finding Lost Persons

**THIS IS ONLY ONE OF THE MANY OFFICES THAT A
MODERN DIRECTORY SUCCESSFULLY FILLS**

The Directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

MAKE MORE USE OF YOUR CITY DIRECTORY !!

Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days, however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You **can** do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

If the results are not entirely satisfactory, it is up to you.

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost and waste postage stamps by the gross.

Would you improve on old methods? Then phone or write at once for particulars to

R. L. Polk & Co.

*Publishers of Directories
of Live Cities*

**List and Prices
on Application**

Your advertisement in any or all of them will
prove to be a compelling force for good business.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
